

VAGAL 2.0

APPLICATION

- Vagal 2.0 supports vagal tone and our parasympathetic state. When we are in a parasympathetic state we have improved digestion: rest and digest. We have enhanced immune function: rest and repair. And more complete detoxification: rest and remove.
- Apply whenever you need to be in a parasympathetic state, but definitely before meals and before bed.
- To apply it, take your finger at the back of your neck, and follow it up to where it meets the skull, and you'll feel a ridge, right in the centre is where you apply it. Put a small drop of oil on your finger and apply it here. It doesn't matter if your hair gets in the way.

Keep out of reach of Children

INGREDIENTS

Roman Chamomile, Nutmeg, Peppermint, Ginger, Melissa, Helichrysum, Organic Jojoba Oil
